

Viewpoint Construction Software partners with three top U.S. construction software resellers.

Portland, OR – 2/3/10 –Viewpoint Construction Software is proud to announce a partnership with three of the top construction software resellers in the United States. These new partners add even more momentum to the accelerating demand for Viewpoint's fully-integrated, comprehensive and configurable enterprise construction solution. The new members of the Viewpoint Channel Partner Program each bring outstanding reputations in their regions as the premiere construction software experts to assist contractors in identifying and implementing superior solutions.

- **Bangert Computer Systems** has focused on accounting, project management and estimating for construction since 1988. They service companies in Missouri, Kansas, Iowa, Nebraska and Southern Illinois.
- **Cornerstone Solutions**, founded in 1985 covering Illinois, NW Indiana and Wisconsin serves more than 900 construction companies with enterprise software solutions.
- **United Solutions, Inc.**, serving Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont has installed and supported software solutions to more than 1,700 construction firms since 1985.

"Our partnership with Viewpoint is another step forward in our mission to deliver the very best technology solutions for New England's construction companies," said Greg Kirshe, United Solutions, Inc. President. "We believe this partnership will enable us to create real value, most notably for customers in the heavy/civil sector."

"Cornerstone Solutions is thrilled to add Viewpoint Construction Software to our line-up of products," said Dom Pernai, Cornerstone President. "This product is a proven winner and is quickly becoming the industry standard solution."

As more construction firms are forced to evaluate their aging technology platforms over the next few years, the combination of Viewpoint's experienced direct sales force combined with strategic channel partners, positions Viewpoint to effectively meet the technology needs of General, Heavy/Highway and Specialty/Sub Contractors. Viewpoint is optimistic that 2010 shows signs of a recovering economy and believes that now is the time for construction firms to invest in their businesses to position themselves to capture the opportunities of tomorrow.

"The addition of these well respected partners will help more construction companies realize the benefit of Viewpoint's industry leading products," said Jay Haladay, CEO of Viewpoint Construction Software.

About Viewpoint Construction Software:

With a long-standing focus on meeting the information needs of contractors of all sizes, Viewpoint has achieved a leadership position in construction enterprise software. Built on a contemporary and scalable Microsoft .Net platform, the firm provides construction-specific solutions that address the unique needs of leading firms throughout the U.S., Canada and Australia.

Viewpoint works closely with its customers to gain specific insights necessary to evolve the software as industry conditions change. The result is software that is built to adapt and scale as customers' business needs grow and change. Most importantly, it means providing an information platform as rock-solid as the foundations our customers build their roads, bridges and buildings upon.
